KARMA

A fascinating concept that has captured the imagination of people for centuries! Derived from the word "KARAM" in Sanskrit; which means "action" or "work", our Karma is to serve curated food; because, we are what we eat!

Our actions and thoughts are transmigrated by our soul over several births. Our Karma is what defines us and is the physical manifestation of our soul.

KURRY

A fun twist on the Indian "Curry"; Curries have gained global recognition as the quintessential gravy to go with almost all breads or rice. A potpourri of spices, vegetables, sometimes a variety of meats, and a whole lot of love; these gravies encapsulate India's unity in diversity!

Karma & Kurry blends the spiritual and physical aspects of our passion; food! Just as the Karma of our past influences our present, we bring a wholesome combination of traditional and modern; a karmic balance of the past and present!

Our dishes recreate the unique blend of herbs and spices stirred and marinated with tender love and care, which will make you nostalgic of your Mother's Kitchen recreating dishes long forgotten now resurrected to tingle your taste buds as you savour the dishes of days gone by.

Be good, do good
